DurocastTM

Synthetic Casting Bandage

Product Description:

"Durocast" Synthetic Casting Bandage is made of flexible Fiberglass/Polyester tape impregnated with water activated Polyurethane resin. It is used for making light weight casts for immobilization after fractures & other orthopaedic corrections.

Product Features:

- Lightweight & Strong: Provides high stability & impact resistance.
- Excellent Mouldability - Durocast has enough flexibility to conform to difficult body contours.
- Short Application Time: Durocast has a setting time of 4 to 5 min. Excellent X-ray radiolucency & Good air permeability to allow evaporation of moisture from skin.
